## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1,2, 4 – 9 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 6, and 8, for example which include a projection zoom lens system at least one of the first, second and fourth groups include an aspherical lens, and sequentially from the screen side, a positive lens that is convex on the screen side, a double - concave negative lens and a positive lens that is convex on the light modulator side, a focal length  $f_w$  of the projection lens system at the wide-angle end and a focal length  $f_t$  of the projection lens system at the telephoto end , and a distance  $T_4$  of the fourth lens group traveling during zooming satisfy the following condition  $.75 < T_4 \times f_t / f_w < 6.6$  .
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
